## ABOUT OUR SHOW

Time Files! is Wainuiomata Little Theatre's first production for 2012. It is a fast paced, time travelling jaunt through the 1950's, 60's, 70's and 80's. Told through the eyes of a young girl, Jade, just after the funeral of her much loved Granddad. There's also our very own Time Machine and a rather mysterious character called "The Narrator".

Time Files! takes us on a journey that starts in Jade's granddad's old shed where over the years some strange and mysterious lights and noises have been seen and heard...

The music is varied and exciting, featuring favourites from each era, the costumes are wacky and weird so sit back, relax and let's all travel back in time together.
